

Dear Commissioner,

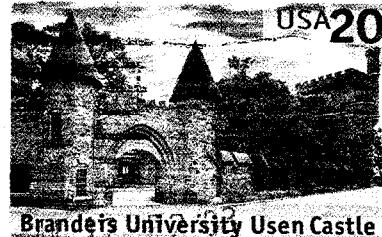

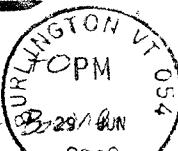

What will it take

Stop the use of the  
growth hormone? Do we  
wait until people start dying?  
As a young person I write to  
you to beg you to do your job and stop  
all use of this dangerous hormone. They  
don't use it in Europe, why should we?  
As far as I know there is no milk shortage  
in this country. Let's Stop Now!!!
